PROFILE

Aspiring AI/ML enthusiast and Web Developer with expertise in React.js, JavaScript. Passionate about creating intuitive, AI-driven web applications that solve real-world problems. Excited to expand my knowledge in machine learning and apply it to intractive web solutions.

PROJECTS/WORKS

Ghoomakkads - A Travel website
UI / Ux Designer and Frontend Developer

Developed a budget-friendly travel planner helping users discover hidden destinations, plan trips, and connect with travelers. Implemented React.js, MongoDB, and JavaScript for the platform. Designed community chatrooms, surprise trips, and digital savings features.

Legal FIR Assistant - An AI-Powered Legal Assistance Web App
UI / UX Designer and Frontend Developer

Built a role-based web application using React.js, Node.js, and OpenAI API to assist Police Officers and Citizens with legal procedures. Features include AI-driven FIR section suggestions, legal rights awareness, penalty calculator, and a smart legal chatbot that guides users through common legal processes.

AYUSH - An Ayurvedic medicinary platform
UI / UX Designer and Frontend Developer

Developed a Flutter-based app providing an AI-powered search and AR/VR-enabled virtual garden showcasing medicinal plants from Ayurveda, Yoga, Unani, Siddha, and Homeopathy. Designed an interactive UI/UX prototype with 3D models, quizzes, and voiceovers for an engaging learning experience.

EDUCATION

Bachelor of Technology (B.Tech) 2023 - 2027
NIST University
Computer Science and Engineering
